Dear Licensee

In recent weeks, Kent Police have received an increase in reports of drunkenness, street drinking and antisocial behaviour within Gravesend Town Centre. These issues are having an adverse impact to the quality of life of those who live, work and visit Gravesend. Kent Police are seeking your support to address this issue by continuing to act responsibly.

The purpose of this letter is to advise you of these issues and to remind you of the licensing objectives:

- The prevention of crime and disorder
- Public safety
- The protection of children from harm
- The prevention of public nuisance

If a premises is found to be selling alcohol to persons engaging in such behaviour, it could be considered a failure to promote the above licensing objectives.

Due to these concerns, this letter is our first step to actively ensure that all premises are fully promoting the licensing objectives. It is also to remind premises of the need to be compliant with conditions attached to their respective premises licence.

A failure to promote the licensing objectives or to comply with premises licence conditions is likely to result in enforcement action and could lead to a full review of the premises licence.

If you have any questions or concern, then please feel free to contact the North Division Licensing Unit using either the telephone number or email address above.

Your sincerely

PC Daniel Hunt
Divisional Licensing Officer
