

## Definitions of Audit Opinions

**Green** – Risk management operates effectively and objectives are being met

*Overall audit opinion:* Expected controls are in place and effective to ensure risks are well managed and the service objectives are being met. Any errors found are minor or the occurrence of errors is considered to be isolated. Recommendations made are considered to be opportunities to enhance existing arrangements.

**Amber** – Key risks are being managed to enable the key objectives to be met

*Overall audit opinion:* Expected key or compensating controls are in place and generally complied with ensuring significant risks are adequately managed and the service area meets its key objectives. Instances of failure to comply with controls or errors / omissions have been identified. Improvements to the control process or compliance with controls have been identified and recommendations have been made to improve this.

**Red** – Risk management arrangements require improvement to ensure objectives can be met

*Overall audit opinion:* The overall control process is weak with one or more expected key control(s) or compensating control(s) absent or there is evidence of significant non-compliance. Risk management is not considered to be effective and the service risks failing to meet its objectives, significant loss/error, fraud/impropriety or damage to reputation. Recommendations have been made to introduce new controls, improve compliance with existing controls or improve the efficiency of operations.

**Recommendations made will be categorised as High, Medium or Low.**
