1. Introduction and Background

- 1.1 Gravesham Borough Council pursues a forward-looking and dynamic approach to delivering services to the local community and in doing so, the council is exposed to risk both in terms of threats and loss of opportunities. The council recognises that risks are inevitable and in practice, cannot be entirely avoided. Resultantly, the council will tolerate a certain degree of risk when pursuing objectives, executing strategies and delivering services.
- 1.2 Responsibility for risk management runs throughout the council and specific roles and responsibilities have been identified so that risk management is embedded in the culture of the council. Finance & Audit Committee have responsibility for monitoring the effective development and operation of risk management through:
- Reviewing any changes that have been made to the Risk Management Strategy, prior to presentation to Cabinet for approval.
 - Reviewing the annual Corporate Risk Register, prior to presentation to Cabinet for approval.
 - Considering progress made during the year, in managing or mitigating risks contained within the Corporate Risk Register.
 - Identifying potential risks for inclusion in the annual Corporate Risk Register.

2. Risk Management Strategy 2022-23

- 2.1 The Risk Management Strategy sets out the approach that has been adopted by the council for identifying, evaluating, managing and recording risks to which it is exposed. The primary intention of the strategy is to ensure that risk management is embedded into the daily operations of the council. The strategy recognises that good risk management will lead to good management, good performance, good stewardship of public money, good public engagement and ultimately, good outcomes for citizens and service users.
- 2.2 In March 2011, it was agreed by Cabinet that the Risk Management Strategy would be reviewed on an annual basis and, where necessary, presented to Cabinet for approval if it was subject to updates and amendments resulting in material changes to the strategy.
- 2.2.1 The Risk Management Strategy has been reviewed and there have been no substantial updates or amendments made to it. The strategy will therefore not be presented for approval but is appended to the report as Appendix 1 for information.

3. Desktop review of the corporate risk register

- 3.1 Prior to commencement of this year's risk identification exercise, the Risk & Resilience Team (RRT) at Zurich Risk Services (ZRS), undertook a desktop review of the Council's corporate risk register. Following completion of the desktop review, Zurich's RRT made recommendations and observations with regards to:
- the presentation and format of the risk register; and

- the articulation and the quality of risk information included in the register.
- 3.3 In order to incorporate Zurich's recommendations with regard to the presentation and format of the register, the risk register template has been amended to allow for:
- The inherent, residual and target risk scores to be seen on one line
 - The corporate objective that each risk links to, to be recorded in the register.
- 3.4 To ensure the articulation and quality of risk information included in the risk register is in line with Zurich's recommendations, senior officers responsible for reviewing existing and new risks have been requested to:
- Consider how each risk will have an impact on the corporate objective it links to.
 - Take a clean slate approach when analysing existing risks are to ensure they are assessed on an equal footing with new risks. This will also allow for existing risks to be sense checked, in order to establish whether or not they are still the main risks, if the descriptions are current and if the scoring is correct.
 - Provide clear information about what the Council is trying to manage. Information should include brief details of the specific event or situation (Risk) and what would make that happen (Trigger) as well as the Consequences.

3 Draft Corporate Risk Register 2022-2023

- 3.1 In preparing the draft copy of the Corporate Risk Register for 2022-23, Management Team, Senior Officers and Members have been requested to provide details of existing risks that continue to score high and should be carried forward to the 2022-2023 register and also to provide details of any new risks that should be considered for assessment and inclusion.
