Forward Plan of Key Decisions

Introduction

Gravesham Borough Council operates a Leader and Cabinet style of executive with the Cabinet as the main decision-making arm of the council. An Overview & Scrutiny Committee, chaired by the Leader of the opposition party, examines decisions made and conducts reviews on matters of local interest.

Each month the council will publish a forward plan of the key decisions expected to be taken during the following four months.

A “key decision” is one relating to a function of the Cabinet which is likely to:

- (i.) result in the council incurring expenditure which is, or the making of savings which are, significant having regard to the council’s budget for the service or function; or
- (ii.) be significant in terms of its effects on communities living or working in an area comprising two or more Wards in the council’s area.

Items are considered “significant” in financial terms where they exceed £250,000 in value.

The plan lists the key decisions for the four month period and then goes on to set out the following information about each decision:

- The topic
- Which body will make the decision (usually the Cabinet)
- Date when the decision is expected to be made
- Particular Wards affected
- Who is being consulted and the methods used
- How representations can be made and a final date for their receipt
- Relevant documents to be taken into account

The summary sheet that follows lists all of the key decisions likely to be made between 1 June 2010 to 30 September 2010 and shows the contact officer at the borough council on each issue. Any enquiries about these decisions should be directed to that officer in the first instance. In the case of any difficulty, the committee section of the Committee and Electoral Services Department will be happy to help.
